MEMORANDUM FOR: Executive Advisory Group Members

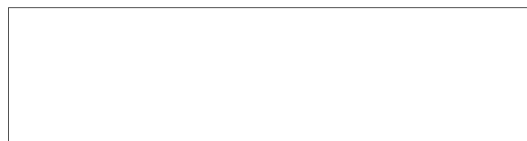

SUBJECT : Consolidation of Micrographics Production Facilities (A/IUO)

1. (A/IUO) The task force appointed to look into the question of consolidation of micrographics facilities has completed its assessment of the pros and cons of this issue. Its findings indicate less than a convincing case for consolidation of the Agency's several micrographics facilities and management responsibility—at least, at this time. No clear case was established that the current, decentralized arrangement is ineffective or wasteful, that consolidation would assure better response to needs unique to each directorate, or that significant savings would result.

2. (A/IUO) The Associate Deputy Director for Administration (Mr. Malanick) has noted that the task force effort served a useful purpose; that senior managers now have a better understanding of the scope and complexities of the micrographics situation; but that consolidation should not be attempted now.

3. (A/IUO) No useful purpose, therefore, would be served by scheduling further discussion by the EAG on this matter. It is agreed that, for the foreseeable future, the decentralized arrangement for micrographics production will continue.

4. (A/IUO) Each member of the task force is commended for a thorough and meaningful response to the EAG's need—a job well done.

James H. Taylor  
Secretary  
Executive Advisory Group
